

What's Your Small Business Computing IQ?

- Five microcomputer-based inventory management systems were available as of Feb. 1978. Each costs less than _____ complete.
A. \$1000 C. \$10,000
B. \$4000 D. \$30,000
- Which of the following is the most effective word-processing system?
A. Vydec
B. Electric Pencil
C. IBM Mag card Selectric
D. All of the above depending upon application
- An 8" floppy disc will store a mailing list approximately how large?
A. 300 names C. 3000 names
B. 1000 names D. 10,000 names
- Computer conferencing is most useful:
A. In a single building
B. Between offices in one state
C. Between offices in several states
- What kind of investment analysis is suitable for a microcomputer?
A. Analysis of puts and calls
B. Arbitrage of options
C. P/E and yield trends
D. All of the above
- A microcomputer-based fire /smoke /intrusion detection system can be easily cost justified.
A. True B. False
- Six magazines deal with small business computing. Which is most comprehensive?
A. Mini/Micro Systems
B. Interface Age
C. Small Business Computing
D. Creative Computing
E. Small Systems World
F. Kilobaud
- The lowest cost (\$600) microcomputer systems are best suited for which application(s)?
A. Environmental control
B. Maintaining customer files
C. Computer Assisted Instruction (CAI)
D. Accounts receivable processing.
- Most business applications can be done using audio-cassette tapes for record storage.
A. True B. False
- Which of the following is *not* a commonly available microcomputer language?
A. BASIC C. FORTRAN
B. Assembly language D. COBOL

Answers

1. B. \$4000
2. D. All of the above depending upon application
3. C. 3000 names
4. C. Between offices in several states
5. D. All of the above
6. B. False
7. C. Small Business Computing
8. D. Accounts receivable processing.
9. A. True
10. B. Assembly language

Scoring

- 0-3 Novice. You need *Creative Computing's* solid, jargon-free tutorials and non-nonsense, non-technical systems evaluations.
- 4-7 Programmer. You've got a good start but before you blow a lot of money you should augment your knowledge with *Creative Computing's* in-depth reviews and how-to programming techniques.
- 8-10 Systems Manager. With your knowledge your systems are bound for success. Look to *Creative Computing* to hone your efficiency and effectiveness to a fine edge.

I want to get the most out of my computer.
